## Gisbel Torres

glorenita.dev /  
gisbeltq@gmail.com /  
+58 4245289570

### Summary

Deep experience with Next.js, React.js and some exposure to Node.js, express and Mongo DB. Proficient in Linux environments, quick at picking up new languages as needed. Specialized in creating small-scale web applications through personal and side projects, highlighting the ability to develop UX effective solutions.

### Experience

#### Systems Programmer Analyst

October 2016 - Present

National Experimental Polytechnic University (UNEXPO)

- Managed computer equipment and network maintenance within Linux environments.
- Maintained of the company's administrative system
- Offered remote support to clients
- Delivered on-site IT-Tech Support for equipment, networks, connectivity, etc

#### LinksTree App (private)

In progress since 2023

Full Stack Developer

- Built web application for users to share their different links and social networks in one place.
- Developed with TypeScript, Next.js, MongoDB and Tailwind CSS.
- Researched and implemented Next-auth for authentication, Redux for state management and using clean architecture to separate and reuse code.

#### Artisan Bakery Website ([open source](#))

2023

Front-end Developer

- Constructed website dedicated to showcasing the bakery's services and dessert creations.
- Implemented TypeScript, React, vanilla CSS and processes to handle path navigation using React Router.
- Employed Swiper, React-slick and React-parallax to enhance user experience.

#### Dice Game with real-time chat ([open source](#))

2023

Full Stack Developer

- Developed website with interactive features such as a dice game and real-time chat to enrich the user experience
- Built and designed using Node.js and Express from the backend side and frontend using React, SCSS. Additionally, a real-time chat system was implemented using Socket.io, and MongoDB.
- Programmed with the intent of integrating an authentication system in the future.

### Education

Lisandro Alvarado Central University (UCLA) - Web Development Diploma - **2015 - 2016**

University of Carabobo Foundation (FUNDAUC) - American English Diploma - **2015- 2017**

Jesus Obrero University Institute (IUJO) - IT Technician - **2011- 2014**

### Certifications

Microsoft Trophy: Build JavaScript applications using TypeScript - **February 2023**

Udemy: React From zero to expert (Hooks and MERN) - **August 2022**

### Tech Stack

JavaScript, TypeScript, Next.js, React.js, Node.js, Express, Tailwind, Git, Bash, GitHub, GitLab, MongoDB, Firebase, SQL

### Languages

Spanish: Native | English: B2 Intermediate
